

Moving planned around your business.

Office, warehouse and workplace moves with one project manager, an agreed written scope and a fixed price after a free walkthrough.

Orange County and Los Angeles County. Inland Empire projects by arrangement. Evening, weekend and phased work depends on the scope, building access and availability.

Commercial moving and workplace support

Office relocations Desks, workstations, meeting rooms and boxed office contents.	Warehouse and industrial moves Inventory, storage systems and equipment reviewed for the agreed scope.
Furniture and workplace changes Installation, cubicle reconfiguration and moves, adds & changes.	Office decommissioning Plan the old-space clear-out and handover against lease and building requirements.

A plan your people and vendors can follow

- 1. Walk the space.** Review the inventory, destination layout, building access and target dates.
- 2. Agree the written work.** Confirm tasks, packing owners, materials, price and handoffs with IT and building contacts.
- 3. Move and check placement.** Follow destination labels and the layout; review the completed moving work and record outstanding items.

For the people managing the move

Property managers, facilities teams, office managers and business owners. Explore our law-firm and medical-office moving pages for practice-specific planning and responsibility handoffs.

Experience behind the written plan.

BMG began in 2018. Established law-office and warehouse assignments are part of our history alongside our more recent commercial moving work.

Garcia & Artigliere | Law office

A 35-person law office relocated over two days. The work included workstations, legal files and office equipment, with the office ready for work Monday. [Read the project story.](#)

Easy Clothes | E-commerce warehouse

A 20,000-square-foot warehouse relocated over one weekend, with operations resuming Monday morning. [Read the project story.](#)

K2 Space | Crates and desks

A completed assignment combining a crate drop with desk relocation over two days. [Read the project story.](#)

Team roles and moving materials

Your project manager coordinates the agreed scope and moving sequence with the crew and your designated contacts. Plan reusable crates, destination labels, protective packing, vehicles and handling requirements at the walkthrough. Confirm specialist equipment and providers separately. [Explore team roles and equipment planning.](#)

Vendor documents and IT handoffs

Request current insurance and onboarding documents for review against your building requirements. Coverage is subject to policy terms. Your IT provider owns backups, system readiness and technical testing; agree physical equipment handling and any disconnect or reconnect tasks in writing. [Request vendor documents.](#) [Plan IT equipment moving.](#)

Start with the scope. Call (949) 444-0211 or email info@businessmoving.com. Office hours: Monday-Friday, 7:00 AM-6:00 PM Pacific. Requests after hours are reviewed the next business day. Dates are confirmed separately.

6388 Artesia Blvd, Buena Park, CA 90620. Project examples describe completed assignments; the scope, schedule and price of a new project are agreed separately.
